

I oppose HB 6355.

From the state attempting restrict our 1st Amendment rights with HB 568 now they are trying to further restrict our 2nd Amendment rights with HB 6355. As you know, CT already has some of the most restrictive gun laws in the country. What's the compelling interest of the state for as it attempts to restrict this Constitutional right?

Although I understand the intent of the bill, I am specially concerned about how expansive the proposed list of complainants is. What safe guards are in place to ensure this bill is not used as a weapon itself - to law abiding gun owners?

For this and several other reasons, I oppose HB 6355.
